

Live in 45 with Amazon Quick Business First | Value Fast

Generative AI is becoming a core driver of organizational transformation, yet many organizations struggle to move from experimentation to measurable business outcomes.

Live in 45 is Quantiphi's structured, high-impact engagement designed to help organizations identify high-value, ROI-driven generative AI opportunities and deploy production-ready solutions on Amazon Quick in just 45 business days. Guided by our **Business First, Value Fast** approach, the program focuses on rapid adoption, measurable outcomes, and a clear path from idea to production.

Key Outcomes

Deploy production-ready, scalable AI solutions on Amazon Quick in just 45 business days.

Accelerate time-to-value through proven toolkits, AWS-native capabilities, and repeatable delivery frameworks.

Establish a future-ready AI platform designed for long-term innovation and enterprise growth.

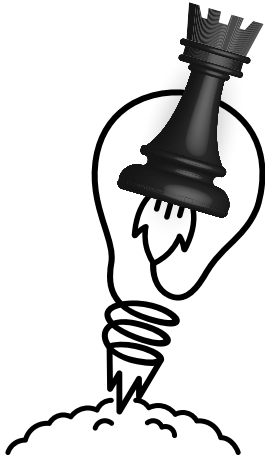

The Journey: 45 Days to Production

Phase	Pre Workshop	Ideate	Execute	Knowledge Transfer
Business Days	Day 0	Day 1-10	Day 11-40	Day 40-45
Timeline	Sales Cycle	2 weeks	4 weeks	1 week
Description	NDA/MSA Signoff Finalization on number of Quick licenses	Discovery Workshop	Implementation of finalized use case(s)	Final Project readout and Demonstration
Key Milestone	Define SOW Get pre approval on Milestone based Funding	Mutually align upon use cases for "Execute" phase	Implementation of the mutually agreed upon use case	KT Sessions with Quantiphi 45 Squad And Roll off

● Is Live in 45 Right for You? ●

Live in 45 program works best when these four elements are in place:

A Real Business Problem: A meaningful challenge where AI can deliver measurable value.

An Engaged Executive Sponsor: A leader committed to driving alignment and removing roadblocks.

An Active Team: LOB and IT stakeholders who will collaborate, learn, and ultimately own the solution.

A Willingness to Work Differently: An openness to adopting AI-native ways of working and decision-making.

The journey does not end at deployment.

When new AI innovations emerge, your team will have the skills and operating rhythm to evaluate opportunities, identify business applications, validate outcomes, and execute with confidence.

Discover

We'll explore what Live in 45 could look like for your team.

Align

We'll work with you on use case prioritization and executive alignment.

Begin

Start your 45-day journey from idea to independence.
